

REMARKS

Below, the applicant's comments are preceded by related remarks of the examiner set forth in small bold font.

Claims 9 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Amendments have been made.

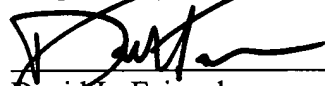

Canceled claims have been canceled without prejudice or disclaimer.

The fact that the applicant has addressed certain comments of the examiner does not mean that the applicant concedes any other positions of the examiner. The fact that the applicant has asserted certain grounds for the patentability of a claim does not mean that there are not other good grounds for patentability of that claim or other claims. The fact that the applicant has amended a claim does not mean that the applicant concedes the examiner's position with respect to that claim or other claims.

Please apply any other charges to deposit account 06-1050.
